

POSITION VACANT

Regional Engineering & Workshop Manager

ComfortDelGro Corporation Australia is the largest private bus operator in NSW. Our subsidiaries, Qcity, Hillsbus, Hunter Valley Buses and Blue Mountains Transit, provide passenger transport services to Queanbeyan and Canberra, Sydney's North West, Hunter Valley and Blue Mountains regions. We are part of an international company with an impressive global footprint and a reputation for providing a safe and reliable public transport network that meets customer and community needs.

The Role:

We are looking for a high calibre and experienced Regional Engineering & Workshop Manager to lead and develop our Queanbeyan Maintenance Team, including mechanics and panel beaters, to deliver safe and efficient vehicle reliability across our bus fleet. Based in Queanbeyan, the role offers a genuine opportunity to consolidate your people leadership skills and apply your technical expertise in automotive heavy diesel repairs and maintenance. An additional focus of the role will be building solid external relationships with government authorities and suppliers to promote our reputation as a quality provider of safe and reliable transport services.

Key Responsibilities:

- Planning and managing the daily operations of the workshop to ensure that daily peak vehicle requirements are fulfilled.
- Guiding and coaching our Mechanical Trades team members to optimise the vehicle maintenance workflow, particularly in the areas of job card preparation and assignment, ordering of spare parts and monitoring of workshop KPI's.
- Assuming responsibility for fleet compliance with all Roads & Maritime Services regulations and standards.
- Conducting regular toolbox talks with team members and undertake performance management processes as required.
- Managing the agreed regional budget within company guidelines.
- Ensuring appointed sub-contractors perform work in accordance with agreed vehicle maintenance standards.
- Operating as a member of the Regional Leadership Team.

Skills, attributes and experience which are essential to succeed in this role:

- Significant demonstrated experience in automotive heavy diesel repair and maintenance.
- A depth of leadership and supervisory experience gained within challenging frontline work environments.
- Strong knowledge of WHS requirements within a heavy vehicle repair workshop.

- Well-honed written communication, interpersonal and influencing skills to confidently deliver outcomes with stakeholders both inside and outside the organisation.
- A pragmatic, professional and energetic approach to 'getting things done' with a high level of independence and autonomy.
- A minimum MR drivers' licence, or the ability to obtain the same.

The role represents a career development opportunity to become an integral member of the Regional Leadership Team in guiding our hardworking Mechanical Maintenance Team to achieve safe and cost effective vehicle reliability.
